

Preschool CVI SCREENING LIST (2 – 5 years of age)

	Yes	No
1 Does your child have trouble with orientation in new spaces?		
2 Does your child have trouble understanding visual scenes and or larger images (that have multiple elements), such as in a picture book?		
3 Does your child need (too) much time to oversee or gauge situations?		
4 Does your child find it difficult to find his/her coat on the coat rack?		
5 Does your child have a hard time finding details in a (crowded) image?		
6 Does your child prefer not to look at crowded pages or pictures?		
7 Does your child find it difficult to find a person in a crowded situation, such as in the schoolyard or in a store?		
8 Does your child have trouble estimating whether something is moving?		
9 Does your child have trouble keeping up with rapidly changing situations (such as traffic, gym, movies)?		
10 Does your child have difficulty going up or down the pavement?		

Note: This is a concept version of the *Preschool CVI Screening List*. A validation study is ongoing. –
